

Prepare for fire

The Southern Cape Fire Prevention Association (SCFPA) presented a one-day basic fire-fighting course at the Knysna Fire Station on Wednesday August 14. The SCFPA's primary objections are to make local communities more aware of fire risks and to empower them to act proactively in reducing fire hazards, as well as preparing communities and individuals to respond to fire emergencies. Dirk Smit, regional manager of SCFPA (Eastern region) says, "All landowners should enrol for this course; the dry season is coming." Photographed during the recent one-day course are Lizel Malan (in front) and behind her (from left) Dirk Smit, Dale and June Hewat. For more information on the course, contact Dirk Smit at 072 785 2742 or Danie Grabe at 082 936 7780, or visit www.scfpa.co.za. (Photo: Ingrid Lehmensich Botha.)
